Salem County  
**Gordon K. Dahl**  
Executive Director

Dear Congressman LoBiondo:

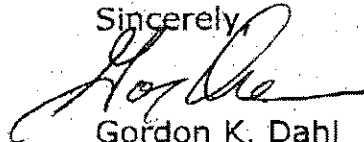

As you are aware, we assist communities throughout southern New Jersey in their efforts to improve the quality of life and build sustainable communities.

To that end, we have identified the following project as a good opportunity where the investment of federal funds would not only meet local and regional goals but support federal policies:

**Next Generation Aviation Research Park Laboratory:** This project would create laboratory facilities to house new business and academia working on the modeling and simulation of the Next Generation Air Traffic System. This facility will create new jobs and help spur economic development in South Jersey. We have identified a need of \$10 million to build this facility.

We appreciate your support of this request and any assistance you can provide in securing funds for this vital project. Thank you for your consideration.

Sincerely,

Gordon K. Dahl  
Executive Director
